

CUT'N'PASTE™

Picloram Gel

For Woody
Shrub species
such as Privet,
Evergreen
Buckthorn
and Barberry

 Important: Read front and back labels before use

NZ Owned & Made

For control of Shrub and Tree Weeds
Convenient, targeted and easy to use
NO Spray Weed Control

Contents 450ml

Directions: Cut as close to soil as possible and scrape bark off exposed roots. Liberally paste all exposed wood with a 3mm layer of gel and cut off leafy shoots and paste the cuts. For detailed instructions and videos for specific weeds visit www.cutnpaste.co.nz or email info@cutnpaste.co.nz

HANDLING, PRECAUTIONS AND EQUIPMENT CARE: The active ingredient, Picloram, is ground residual and can travel through soil, particularly when large numbers of weeds are treated. The mode of action of the pyridine group of herbicides is to disrupt cell growth; some weeds may be resistant to these chemicals. You are advised not to use next to desirable or known sensitive native plants or in areas where their roots might extend to. Do not use if rain is expected within two hours. The active ingredient from the gel can leach onto wanted plants. Effectiveness may also be reduced.

Do not apply on or around food or animal feed crops or areas to be grazed by animals.

STORAGE In the tightly closed original container in a cool dark place, away from children and pets, foodstuffs, seeds, fertilisers and pesticides. Kept as recommended the gel will show no appreciable deterioration for at least two years from the Date of Manufacture (DOM).

ACTIVE INGREDIENT
43g/kg Picloram
CAS No. 2545-60-0
EPA Approval HSR101073
Hazard classes: 6.5B, 9.2A

This product must be under the personal control of an approved handler when used by a commercial contractor. Do not use on or near water or carry more than 3kg in a vehicle.

FIRST AID MEASURES
MAY CAUSE SENSITISATION FROM PROLONGED SKIN CONTACT. Avoid contact with the skin. MAY CAUSE ORGAN DAMAGE FROM REPEATED ORAL EXPOSURE. Do not eat, drink or smoke while using. Remove protective clothing immediately after handling this product and wash hands and face before meals and after work. Skin contact – wash with soapy water.

Developed for you by a Park Ranger who served as a Biosecurity Officer on Waiheke Island.

Andy knows all about weeds; he has worked in conservation since 1988 and cares about our environment.

Andy developed **CUT'N'PASTE™** products to minimise the adverse affects of weed control on spray conscious Waiheke Island.

As used by the Department of Conservation and Councils throughout New Zealand.

"We do not inherit the earth from our ancestors. We borrow it from our children." NA Indian
